The Smart Way To Improve Your Home

Smart AI Capabilities

Unified Device Management

Multi-Channel Monitoring

Motion Detection

Advanced Playback

VMS Pro

VMS Pro is a powerful video management software that streamlines the control and monitoring of your entire surveillance system from one easy-to-use platform.

Intelligent Recognition

- Face recognition for access and attendance
- License Plate Recognition (LPR) for vehicle tracking
- Detect and differentiate humans vs. vehicles

Perimeter Security

- Intrusion & line crossing alerts
- Cross counting for entry/exit tracking

Crowd & Queue Analytics

- Crowd density alerts for safety compliance
- Queue length detection for service efficiency

Smart Video Analysis

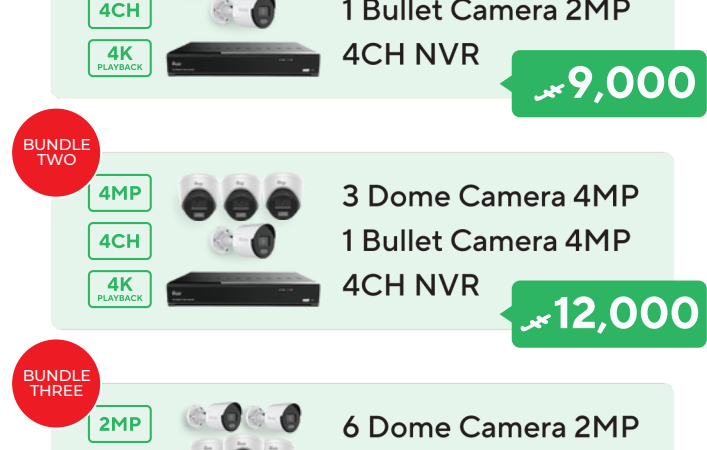

- AI scene setup for behavior tracking
- Search by face, age, gender, mask, etc.
- Face comparison & repeat visitor detection

Efficient Playback

- Smart playback by selecting specific regions
- Tagged event-based quick review

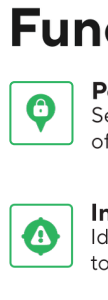

AI-Driven Insights

- Heat map visualization
- Attendance reports via face detection
- Visitor trend analysis
